In the mall one day, I saw you walkin' past  
And then I looked again and you were gone  
Well anyway, I thought about  
When I last talked to you and how I prayed for you  
And how I told you things would be fine  
In time you would be okay  
If that was you then

God bless  
You been on my mind  
Thought I'd call you up and tell you  
God bless ya  
And I'm glad you didn't break under the pressure

God bless  
I know it's been a while since  
We spent time together  
God bless ya  
But I'm glad to see you doin' so much better

I remember when you made a big mistake  
And had to go away  
And when your time was spent  
You did all you could to prove you had changed  
So many people didn't wanna give you a second  
chance  
But you never let that keep you from getting on your  
feet again

God bless  
You been on my mind  
Thought I'd call you up and tell you  
God bless ya  
And I'm glad you didn't break under the pressure

God bless  
I know it's been a while since  
We spent time together  
God bless ya  
But I'm glad to see you doin' so much better

God bless

You been on my mind  
Thought I'd call you up and tell you  
God bless ya  
And I'm glad you didn't break under the pressure

God bless  
I know it's been a while since  
We spent time together  
God bless ya  
But I'm glad to see you doin' so much better

I really wanna let you know  
I'm so happy for ya  
Ya didn't let nothin' hold you back  
You did just what you had to  
To change your situation and  
Get yourself together  
Made it through whatever  
Wishing you the best

God bless  
You been on my mind  
Thought I'd call you up and tell you  
God bless ya  
And I'm glad you didn't break under the pressure

God bless  
I know it's been a while since  
We spent time together  
God bless ya  
And I'm glad to see you doin' so much better

God bless  
You been on my mind  
Thought I'd call you up and tell you  
God bless ya  
And I'm glad you didn't break under the pressure

God bless  
I know it's been a while since  
We spent time together  
God bless ya  
But I'm glad to see you doin' so much better

God bless  
God bless  
God bless  
God bless  
But I'm glad to see you doin' so much better
