[English]

Where is the beginning and where is the end?
I realized I was running from it
Even in tight rain or heavy winds
In a determined speed

[Wake up!] my shaking fingers,
[Get up!] grip it tightly
[Stand up!] take a deep breath
The world is accelerating once again

Its gonna be ok!
Chase after the trace of those shooting comets
[Gonna] be ok!
Chase in the bright light after the dream so close that
you believe in

The feeling of your world expanding
It's so fun you cant stop
Its not about being strong its not a shape
It's the power to believe in something that you can't see

[Wake up!] only looking ahead
[Get up!] dont be afraid of anything
[Stand up!] take a deep breath
The world is accelerating once again

It's gonna be ok!
Chase after the trace of those shooting comets
[Gonna] be ok!
Hold this bursting feeling that cannot be described in
words and face the future

What is waiting beyond this point?
Even so, i will just keep running

It's gonna be ok!
Chase after the trace of those shooting comets
[Gonna] be ok!
Chase in the bright light after the dream so close that
you believe in
