Yeah, yeah, c'mon  
Man, I just do what the due is due  
C'mon, yeah, you heard it man  
I just do what the due is did now

I been makin' hits since underage  
Contract intact, can't be under paid  
This ain't a game, I ain't come to play  
Don't front for me, I ain't from the A

Don't you wanna hear, what I come to say?  
This just a kid, you know me from before  
Prices go up when I come in the store  
I'm in another island in a bungalow

Evisu down to my under close  
Ate like a cat that was undersold  
I give and get it back in a hundred fo'  
I feel like a man that was from the road

And y'all know that I will bring you out  
And what I'm talkin', you don't know a thing about  
Bring Modenas out, take a scenic route  
Bettin' against me, it's bound to clean you out

This is for all of my people who stood beside me  
And still believed, drop-top cars and SUVs  
G5 flights and shopping sprees  
This is where you wanna be, this is La Familia

It's hard to get low in a 3 6 0 Spider  
License plates all the chicks know  
Cats walk around buffed up like beach guys  
But they don't put no fear in these eyes

Besides, I'm just here to teach lives  
Girl, walk around, try to give me the slide  
The ice on my arm, it gave me all away  
I roll up the tint top up and rode away

I smell like money, let the odor stay  
Go in my closet, fur to throw away

I'm never lost, I already know the way  
If I need it for tonight, I'll get it for today

I'm God made, I took five years parlay  
Home pool, arcade and it's all paid  
What say, I spend a third on a upgrade  
Import palm trees 'cuz I ain't have enough shade

This is for all of my people who stood beside me  
And still believed, drop-top cars and SUVs  
G5 flights and shopping sprees  
This is where you wanna be, this is La Familia

And when the record plays, what will the haters say?  
Oh, don't you be afraid 'cuz I'm your alibi  
So when I'm drivin' by, don't try to analyze  
It's because of him, I'm a still be fly and this our lullaby

C'mon now, you know my flow, I'm in and out  
Non guilty, I ain't gotta buy the trout  
Couple of critics but I ain't gon' stop now  
I got a plane to catch to be in Moscow

I'm on jets, they doin' sky miles  
So I see why the people so hostile  
It's no drama, it's mo' honor  
I'm wanted in the world like I was Osama

This is no exaggeration  
Why these people so mad at Mason?

This is for all of my people who stood beside me  
And still believed, drop-top cars and SUVs  
G5 flights and shopping sprees  
This is where you wanna be, this is La Familia

This is for all of my people who stood beside me  
And still believed, drop-top cars and SUVs  
G5 flights and shopping sprees  
This is where you wanna be, this is La Familia

Take that, take that, take that, take that  
Take that, take that, take that, take that
