(feat. Kanye West)

Every time you were around me baby  
Boy you know you drive me crazy  
And I really wanna be your lady  
That's all baby, nothin' else  
I been watchin' you for a few years  
Every time you come around, I just stare  
There is somethin' I gotta make clear  
All I want you to do is

[Chorus:]

Hold me, hold me (hold me)  
Show me that you do (that you do)  
Wanna get to know me too  
Hold me, no more lonely  
I'm with you (I'm with you baby)

We been spendin' more time together  
Gettin to know each other better  
Baby I am down for whatever  
Slowly fallin love  
Cause you treated me like a princess  
Wit you, don't have to worry 'bout stress  
And I really have to confess  
You're the best baby

[Chorus]

[Verse: Kanye West]

See none of the girls know me, but they all want me  
So when they start runnin' they mouths just hold me  
and keep me in your prayers so these nay-sayers can't  
make it through out layers  
I say somethin' to warm you up like California  
I'm from the Chi, you from the Apple like Fiona  
I'm feelin like Prince when he met Appolonia  
You feelin kinda tense cause what ya frienda have  
warned ya  
Man, they hatin', if they ain't hatin, they insinuatn'  
You remember when we first start datin, we worked at  
the mall

They said we like a guy with no muscles. oh they'll  
never work out at all  
And I just that broke dude that worked next door, but  
can please donate some sex to the poor  
Baby, I see it, one day, we'll be drivin in dem crazy  
whips  
I ain't gon' be workin' this grave shift 'til I'm 86  
I ain't gon' be pushin' this broom, I ain't gon' be stayin'  
in my friend's room that's only one bedroom that i call  
my lair  
We was V.I.P.  
Very imaginary Playas  
See why we, smoke our weed  
You neva let these rumors come between you and me  
And that's good lookin' plus you good lookin' plus the  
hood lookin'  
So hold me down like B.I.G. held Brooklyn

[Bridge:]

Hold me down, don't go away (don't go)  
Give me your love a million more days  
In your arms, I wanna stay (stay)  
I always wanna be with you  
Anything you want me to do  
Baby you know I'll do it for you (you)  
(Hold me, show me that you do)  
[Continue until end]
