in july, rain, and the lake's all flooded out
august brought the same, but carefully wondering...

what this is about... (3x)
...is all of the things that make you feel better

well, september came and took the one i care about
nothing looks the same, it's left me wondering...

what this is about... (3x)
...is all of the things that make you feel better

where is that new year?
it's time for me to be heading out
i have nothing to fear
i'm going where the people know...

what this is about... (3x)
...is all of the things that make you feel better

and when you find them, leave them never (4x)
