# "United States Global Empire"

Visit "[United States Global Empire](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Our united states of america  
Has quickly become a global empire  
Come on  
See it now for what it really is  
Power hungry with nothing much to give  
And violent, all in the name of freedom  
Freedom is not domination  
I believe freedom has got to come from within  
Yes it does  
And without the gun  
Freedom's the ability to feel love for everyone

The empire controls the media  
And media controls the world  
Come on  
Media is the empire's mouth  
Capitalist propaganda coming out  
And violence, all in the name of freedom  
Freedom is not competition  
I believe that freedom's got to come from within  
Yes it does  
Not with the gun  
Freedom's the ability to feel love for everyone
