Lie awake from my slumber
And I do take a look at you
A look at you

Take in air and let it out
State your case, tell me your doubt
I'm, I'm in deep with you

But please girl, whenever I'm gone
Baby don't feel, please don't be wrong
How do I know you're in love with me, baby?

I see pain in your eyes
You hesitate, despite the lies
I'm, I'm bleeding for you

Feel your stare from across the room
Kiss your lips, tasting your gloom
I'm, I'm staying for you

Please girl, whenever I'm gone
Baby don't feel, please don't be wrong
How do I know you're in love with me, baby?

But please girl, whenever I'm gone
Baby don't feel, please don't be wrong
Oh I know you're in love with me, baby

Please girl, whenever I'm gone
Baby don't feel, please don't be wrong
How do I know you're in love with me, baby?

Please girl, whenever I'm gone
Baby don't feel, please don't be wrong
How do I know you're in love with me, baby?
