I was born on the river  
21 years ago  
Now I'll tell you my story  
Something there that you'd like to know  
Sweet lady love, love me down  
Sweet lady love, love me down  
Got me a job on a river barge  
Learned the ropes up and down the line  
Workin  
Picked up a girl in natchez  
Took her home and I made her mine  
Sweet lady love, love me down  
Sweet lady love, love me down  
Little log cabin down home  
And I'm takin her to it  
We can make it alone  
And I know we can do it  
Then I got into some trouble  
Hit a man and I watched him die  
Now me and my woman are runnin  
It won't be long and she'll learn to fly  
Sweet lady love, love me down  
Sweet lady love, love me down
