Everytime you go back home  
you know that it sucks ass  
Everyone they drive to slowly  
to them i drive real fast

The man captures the criminal  
but they jus don't serve time  
punishing the innocent  
all they do is ruin lives

Ive been up all night  
trying not to die  
lets see what comes to mind  
This is what I've been waiting for  
time is such a bore  
i know you will survive  
everytime you walk back through the doors  
everyone just shouts your name  
i don't want to talk to you  
you just drive me insane

ive been up all night (Get me out)  
trying not to die (Of here)  
lets see what comes to mind (Get me out right now)  
This is what I've been waiting for (get me out)  
time is such a bore (of here)  
i know you will survive (get me out right now)
