He got his collar up walking through school  
everyone knows him as Mr. Kewl  
Pearly white teeth ear to ear grin  
Not 1 but 2 different girlfriends  
has messy hair dresses like a slob  
He can't even hold a steady job  
wears his hat off to the right side  
every relationship is going to die

He's what every girl wanted  
It ends quicker than it started  
Cuz he's

A rockstar  
Overrated  
his anger is his own demise  
Brown hair  
blue eyes  
tripping on his ego just to find  
That he is hollow in side

It's midnight at his rock show  
She's front row but he doesn't know  
screaming out his name he's caught up in fame  
he's the only reason why she came
