

## Massacra "Agonizing World"

Visit "[Agonizing World](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Chemical pollution  
We're heading for disaster  
Progressive destruction  
We are all in hot water  
Enviromental  
Deterioration  
Agonizing world  
Stark desolation  
Bleching out chimney stack's  
Industrial area  
Noxious smoke / Posion gas  
On the verge of asphyxia  
Wasted life  
We have reached the point of no return  
End of live  
Now our future takes a turn  
Nuclear explosions  
No regard for life

No man's land / Danger zones  
Dead silence / No sign of life  
Radioactive waste  
Contamination  
Agonizing world  
Stark desolation  
Carbonic dioxides  
Nuclear radiation  
Acid rain / Toxic clouds  
Critical situation  
Wasted life  
We have reached the point of no return  
End of life  
Now our future takes turn
