We want to do a homonation  
To the soldiers of metal  
They follow up massacrations  
They don't like carnivals

They fight like dogs in the "roda"  
Encarnate battles  
And in the end abrate the others  
It's the brothers of metal

[Chorus:]  
Good blood headbangers

They give the blood to the metal  
Their blood is very good  
Good blood headbangers

The master brotherhood

So if you need aid  
They always give you help  
But if you need some money, baby  
Go fuck yourself
