Agonizing pain in your brain
You feel this drugs flows in your veins
Raging fever of excitement
Fit of choking you're in torment
Sufferer from mad scientists
You've been act as a guinea pig
Trying on you experiments
In the neme of the new science
Declining world, lawnless world, self destruction
Laboratories, mad scientists, new corruption
Now you're under the influence of their serum
No solution, it's a poison and you're destined to die
Researchers of tortures
Acting like mad butches
Scientistic sorcerers
Using drugs and tortures
Excruciating pain in your veins
This noxios drug is burning your brain
Now you can feel no emotion
Thgey neutralized your sensation
They've got your soul under control
You've prisonner in their power
Sufferer from these sorcerers
You must comply to their orders
Researchers of torturers
Acting like mad butchess
Scientific sorcerers
Using drugs and torturers
Declining world, lawnessless world, self destruction
Laboratories, mad scientists, new corruption
Now you're under the influence of their serum
No solution, it's a poison and you're destined to die
