We want to do a homonation
To the soldiers of metal
They follow up massacration
They don't like carnaval

They fight like dogs in the "roda"
EncarniÃ§ate battles
And in the end abraÃ§ate the others
It's the brothers of metal

[Chorus:]
Good blood headbanguers

They give the blood to the metal
Their blood is very good
Good blood headbanguers

The master brotherhood

So if you need ajudation
They always give you help
But if you need some money, baby
Go fuck yourself
