Dear beloved,
I hope you know
When time paused for the moment
These memories
Of you
All these photos
Tears me down into pieces

All of this hope
Was just for nothing
Is this everything you wanted?
When everything was reality
Just turned into tragedy
Lets look upon the sky
Your just another lie

I can't see the light
I'm reaching for the stars
These words have spoken
What's done is done
This is just the beginning
Of the end

This is revenge!

This is revenge!

THIS IS REVENGE!

THIS IS REVENGE!
