Dark nights the planet are set  
Here is my dream and it's waiting for me  
Please take me away  
From disappointment, fear and disillusion

At the glare of a light  
I have a strange king of sight  
Flying invisibly high  
Over the mountain of black sky

I, I've conquered the time  
To want to steal a knife then  
I'll check that I have skin  
Then I'll check that I have life

I have to face  
Face my fear  
I have to face  
Face my paranoid  
Stay, stay, stay... stay away

ALTAZOR

I think I'm losing touch  
I wonder where the hell I am  
If I keep self control  
I'll be safe in my soul

I have to face  
Face my fear  
I have to face  
Face my pararnoid  
Stay, stay, stay... stay away  
ALTAZOR!
