I heard that you've been having nightmares,
Cause I broke your heart, and baby it's time to let it go!
And girl, it ain't fair
I know it's killing you to hear me on the radio!
You know I don't care
I gave you everything you needed, but you wanted more
Let's end it right here,
Cause I promise you baby,
I won't come out no more!

I don't love you anymore,
I don't love you!
I don't love you anymore,
I don't love you!
I don't love you anymore,
I don't love you!
I don't love you anymore,
I don't love you!

Ladies and gentlemen, tell her she can never win
Wasn't real, then again, that's why you're irrelevant!
Put that shit to sleep, deep sedative
I don't love you anymore, truth is that I never did!
Fly higher than the pelican
Yeah I'm in the sky where you never been
High again, my skin thicker than the elephant!
Took you out the mad house, had you looking elegant
Told ' ever settling, send you back to hell again!

I don't love you anymore,
I don't love you!
I don't love you anymore,
I don't love you!
I don't love you anymore,
I don't love you!

I don't love you anymore,
I don't love you!

I heard that you've been having nightmares,
Put that shit on me again, that's the way it goes
My heart is breaking
You know you should have seen this coming way too long ago!
I know you hate me,
Cause I' you in your lies, now you're all alone
You tried to break me
I promise baby, I ain't' coming back no more!

I don't love you anymore,
I don't love you!
I don't love you anymore,
I don't love you!
I don't love you anymore,
I don't love you!
I don't love you anymore,
I don't love you!
