(feat. Belly)

[Intro]

Im'a make you rush the floor  
Fellas throw your hands up, Ladies touch your toes  
look, Im'a Bout to crush the flo  
If they dont let us in were gonna bust the door

[Chorus]

Ay yo, I know that your feelin to stay close  
First call me up, Then maybe we can just lay low  
Then we gotta dip out of here, And if they see you  
leave with me  
They know, That your not on your way home  
Im'a give you love then maybe we can just lay low  
Shorty shorty tell me how you feel  
Doing the things you did with me tonight

Verse 1]

I know you want to ride with a soldier  
This styles getting closer and closer  
Yeah i keep my friends around me  
Run and tell your friends about me  
make your body move like a cobra  
And now you got me wishing i can show ya  
All those things i could do, The things i would do  
If you was with me

[Bridge]

You want me with you all the time  
Thinking about me day and night  
Baby i can trust you  
I know you want the need to shine  
now your spending extra time  
Just know that i know what your upto

all you wana do is live my life from the get-go  
if you love it then you never wana let go  
and all i wana do is get mine from the get-go  
if you with me then i gota let you know

[Chorus]

Ay yo, I know that your feelin to stay close  
First call me up, Then maybe we can just lay low  
Then we gotta dip out of here, And if they see you  
leave with me  
They know, That your not on your way home  
Im'a give you love then maybe we can just lay low  
Shorty shorty tell me how you feel  
Doing the things you did with me tonight

[Verse 2]

I aint getting commercial  
Im just hear vision impared  
Sipping on purple  
i, Got nothing to lose  
\$50 Socks, hundred thousand dollar shoes  
So even if she acting kinda rude  
Im'a slide her through, And show her what a rider do  
She thought that she could never find a dude  
This much ambition, Im always on the move  
Going fast tryna switch lanes, Im rick james  
The gangster that spit game  
And it aint nothing like sick brain  
Now i got you on the floor Like spike at a nick game  
Right beside me in the big range  
Pinky worth three curve B on a sick change  
I know you dying to see, The way you look if you could  
ride with me  
mami

[Verse 3]

Shorty dont stop till its over  
Watch, A gun and a rover  
girl i know you've heard about me  
must have heard the word about me  
now you wana see what they told ya  
and im'a show you over and over  
and now that its time to let go, your not gon let go  
you dont wana leave...me
