If you're lonely just pick up the phone
Say those three magic words that I love girl, come one
If you want me slide that ass down that pole
Pull it down lil' bit, baby show me some more

Drop it to the floor, dance a little more
What she's done is ringing down, I'm yours
Your body baby, I wanna take you for a ride
Spoke a lot what's going down once you let me inside

Baby, what you're thinking?
Never mind what you're drinking
Take off them clothes and let me see you close
Baby, what you're thinking?
Never mind what you're drinking
Take off them clothes and let me see you close

Where is the money?
All she wants is the money
All she wants is the money
All she wants is the money
All she wants is the money

Do you want me to lay you on this bed
Run my fingers through your hair
Touch the places he won't dare
Do you need me
Like water to a rose
Show you things that he don't know
Take you places he won't go

Drop it to the floor, dance a little more
What she's done is ringing down, I'm yours
Your body baby, I wanna take you for a ride
Spoke a lot what's going down once you let me inside

Baby, what you're thinking?
Never mind what you're drinking
Take off them clothes and let me see you close
Baby, what you're thinking?
Never mind what you're drinking

Take off them clothes and let me see you close

Where is the money?

All she wants is the money

All she wants is the money

All she wants is the money

All she wants is the money

Do you want me?
