Beyond cruel will received  
The comfort in a broken heart  
Now palette shades  
An image after life  
(After life)

Alone  
Surrounded by a million faces  
One by one  
I see the judgment in your eyes  
(I see the judgment in your eyes)

Like a disease  
I'm always in the wrong  
And now the numbness wearing off  
Can't stand the pain  
I get in line  
(I always do)  
I always do  
Need to be patient while perfecting  
That's the sign

I cannot help it, can't decline  
It's always better down the line  
I'm in the wrong and I've done it all before

And I wish I'd never been  
And I know it's just a dream  
Now I'm blind I can open my eyes

Can't stay awake  
Burning alive  
I cannot breathe this poison air filled with lies  
I cannot see  
What's done to me  
Live in fear  
The sun is falling from the sky  
Can't stay awake

Nothing left to break my rivals

In a thousand pieces, million reasons

Why should I keep myself away?  
(Hard to define)  
Hard to define  
(It always is)  
It always is  
It's hard to scream with a throat full of glass  
(Throat full of glass)

I cannot help it, can't decline  
It's always better down the line  
I'm in the wrong and I've done it all before

And I wish I'd never been  
And I know it's just a dream  
Now I'm blind I can open my eyes

Can't stay awake  
Burning alive  
I cannot breathe this poison air filled with lies  
I cannot see  
What's done to me  
Live in fear  
The sun is falling from the sky  
Can't stay awake

(Can't stay awake)

Can't stay awake  
Burning alive  
I cannot breathe this poison air filled with lies  
I cannot see  
What's done to me  
Live in fear  
The sun is falling from the sky  
Can't stay awake
