

Massive Attack "Four Walls"

They know that I can't settle down
They know but they won't keep me in line, in line
They know that I want his liquid
They know that I'm not her breath
They know that I can't settle down
They know but they won't keep me in line, in line, in line

These four walls have eyes, got lost on the way
They'll hold me a while till he thinks that way, till

In line last night held the light
Down to save me from pain, happiness can lie
Remembering our lost home (our lost way)

In line, in line, in line till we're lost, I forgot
