Hard as a rock, home alone,
still feeling the hang over from the night before,
wasted and so are you,
started freaking on each other what are we too do

You started stripping oh what a vision baby ,
So I started stripping you started kissing on me,
So glad I had the chance to make another friend,
Its one thing on my mind I'd like to do again

I wanna go downtown, I wanna go downtown
Slow driving through yo city its so nice and pretty
And I know that you like it when I lick and stroke ya
body

I wanna go downtown, I wanna go downtown
Slow driving through yo city its so nice and pretty
I know you like it when I lick and stroke ya body baby

So come on now that we've known each other
Ready for round two disappear under covers
I dont have no regrets about the love we made
I'd do it all again just to be with you again

You started stripping ooh what a vision baby,
So I started stripping you started to kissing on me
So glad I had the chance to make another friend
And Its one thing on my mind I'd like to do again

I wanna go downtown, I wanna go downtown
Slow driving through yo city, its so nice and pretty,
And I know that you like it when I lick and stroke ya
body babe
(repeat 4X)

You started stripping ooh what a vision baby
So I started stripping you started to kising on me
So glade I had the chance to make another friend
And its one thing on my mind I'd like to do again
Downtown
