"Glory Bound"

Waitin' at the street light
Ready to cross the white line
Yeah I push my foot down to the floor
It just may be the last time
Dodgin' bullets, like a target, on a firing line
And I can't slow down 'till I touch the ground
When this place that I call home, becomes a faraway
land
Yeah, then the Savior comes to take me, take me by the
hand
And my feet touch down on solid ground
I've got this feelin' in my heart
That's when I'm ready to depart

Chorus

Glory bound, and I won't touch down 'till I'm on the
ground
Glory bound, and I'm on my way to a better day

Headed for a big ride
And I know right where I'm goin'
Like a soldier headed for the battle line gonna lay it
down
And I won't slow down 'till I touch the ground
I must be ready for the day
When I can turn and walk away

(Chorus)

I've got this feelin' in my heart
And now I'm ready to depart

(Chorus)

And I'm glory bound
Take me by the hand
