On the morning of a storm, I was looking for a warm
place to be
'Cause I'd been away much too long, you'd been
waiting there for me patiently
Then you laid your hands on me
Then you laid your hands on me

Chorus

'Cause this is the day of our reunion, I've been away
too long
This is the day, the morning after
'Cause you laid your hands on me

Well I knew it all along, that there would come a day
I was never really gone, I just lost my way
Now the sun is shinin', there's a new day fallin'
If it takes forever, you will hear me callin'
If it takes forever, if it takes forever
If it takes forever, if it takes forever
I want you so badly

(Repeat Chorus 2x)

If it takes forever, if it takes forever
If it takes forever, if it takes forever
I want you so badly
oh, this is the day, I can't wait any longer
This is the day

(Chorus)
