Revolution in their night  
The children start to march  
They hate a world in which they have  
To live in  
The hatreds in their hearts  
They're tired of being pushed around  
And told just what to do  
Fight a world until they burn  
And love goes following through

Children of tomorrow days  
See them fall today  
Will the sunlight of tomorrow  
Bring them peace in anyway  
Watch the world within the shadow  
Of atomic fear

Will they win the fight for peace  
Or will they disappear?

Oh, you children of the grave  
Listen to what I say  
If you want a better place to live in  
Spread the world today  
Show the world  
That love is still the life,  
You must be brave  
Oh, you children of today  
Are children of the grave
