Sittin on chrome (8x)

Chorus: *with sample from eazy e*

He once was a dog from around the way... [so you better take it]

Eazy! [and I'm sittin on chrome]

He once was a dog from around the way... [so you better take it]

Eazy! [and I'm sittin on chrome]

I just got paid...

It's friday night...

I'm sittin on chrome...

And I'm feelin alright...

Verse one:

Take it ez, like e 'cause I be

Lettin niggaz know what time it is when it comes to me

You can't find us here anywhere and I tear

You a new asshole, as beautiful as gold

Look at your reflection in my shine, find

Pissy hallways are always on my mind

But not tonight, I'm sittin on chri-dome

Makin more waves than my cellular phi-done

Mental energy from within keeps me higher

Than anything rolled and set on fire let me try a

Little somethin new, grand 'cause what I am

Is mathematic, I must to blow your static if I can

I.n.c., crew I thought you knew

That's how you do well check it this is how I do

Chorus

Verse two:

I'm sittin on c-h, r-o-m-e

Sippin brass monkey, digga got the remi

Martin I'm startin to feel like I wanna

Hit the strip spot and I think that I'm gonna

I see my nigga jose, "mida, que pasa? "
We goin to the spot, need a ride? I gotcha
So come on in, come on in, come on in
It's like fire when you see my chrome spin
I paid the valet, I stepped to the stage
I think I wanna play with the girl in the cage
Lap dance, lap dance, lap dance
Baby look I got trouble in my pants
I just checked my wallet, no more dough
I just paid your rent and now I gotta go
She did me till i's done, smooth like bally
I walked outside, they said that they ain't got no valet
Somebody caught me slippin, dipped with my ride
But we gonna catch they ass on the b-side

Chorus

I just got paid...
It's friday night...
I'm sittin on chrome...
And I'm feelin alright...

Verse three:

You can't i-n-c me, the
Ace niguah, so be ghost like amity-
-ville horror, till tomorrow, you're done
So jet like delta, I'm fly like the nun
My mental state's, more great than the lakes
I'm superior, it's erie how I breaks
Niggaz down, with the sound as I shine
One time, and the chrome is the mind

Chorus
