[Intro]

I know nobody ever really tell you like
And all the things you been truth
And you been there for us, no matter what
This my letter to you dad

Even though I love my mama,

[Hook]

This my letter to my daddy, my letter to my daddy
When we ain't had nothing
You came through, daddy
This my letter to my daddy, my letter to my daddy
If you love your daddy,
Then hug your daddy
This my letter to my daddy,
If you don't have a daddy
Any man that raised you
We call him daddy
This my letter to my daddy, my letter to my daddy
If I never told you this, yeah
I love you daddy

See my daddy taught me how to ride my bike
I said my daddy taught me how to fly my kite
Daddy even told me stories to put me at sleep at night
Daddy told me don't trip and everything gonn be
alright
When we was hungry, daddy went found some food
Before he went to work, daddy even walked us to
school
Daddy was late on the bills,
And still brought us some shoes
And daddy never made us ill like it wasn't cool
You ain't perfect sometimes, you like to smoke and
drink
But your educators told us we gonn be what you can't
And daddy walked by the bus, if we lie and still
He was tough but he still kept it real

[Hook]

This my letter to my daddy, my letter to my daddy
When we ain't had nothing
You came through, daddy
This my letter to my daddy, my letter to my daddy
If you love your daddy,
Then hug your daddy
This my letter to my daddy,
If you don't have a daddy
Any man that raised you
We call him daddy
This my letter to my daddy, my letter to my daddy
If I never told you this, yeah
I love you daddy

When I got sick, daddy took me to the hospital
When I felt better, it was icecream and popsicles
Daddy taught me things that no man ever taught me
Daddy showed me how to fight say you'll never be a
sucker
Daddy call broke down, we was dry when we rode that
bus
Daddy held our hand, smiled when mom would fuss
He said yeah, y'all better chase your dreams
Cause these streets ain't what they seem
And going to jail ain't an option
Believe me go and can nobody stop you
From the hood, but still could be a pro, a lawyer or
doctor
And raise your family, could never be a dead beat
Daddy taught me how to be strong
That's how he raised me

[Hook]

This my letter to my daddy, my letter to my daddy
When we ain't had nothing
You came through, daddy
This my letter to my daddy, my letter to my daddy
If you love your daddy,
Then hug your daddy
This my letter to my daddy,
If you don't have a daddy
Any man that raised you
We call him daddy
This my letter to my daddy, my letter to my daddy
If I never told you this, yeah
I love you daddy.
