

## Master Shortie

### "All I Need"

Visit "[All I Need](#)" on [MotoLyrics.com](http://MotoLyrics.com)

[Hook: Bruno Mars]

Sugar, cocoa and honey  
(Hey yo Bruno Mars)  
That's what you taste like to me  
(I love it when girls taste like milk chocolate)  
Now all I need is your sex to wash it down  
(White chocolate, dark chocolate)  
Uh, come here girl right now  
(It all goes down the same way)

[Verse 1: Master Shortie]

I'm a British boy so I can British things  
Like nibble on your earlobe and let your body sing  
You're my violin and I'm a string  
With every breath you take I won't let it sting  
So let me in, open your doors  
What yours is mine, what mine is yours  
Where's your pussy, give me your paws  
And I don't mind if it's you goin' through my drawers  
Keep it clean 'cause we gettin' in a mess  
Baby girl, yeah you're better in the flash  
I heard from your friends that I'm better than your ex  
And if I'm real then I'm better than your next  
Banoffee pie, you're my sweet tart  
That's one of the reasons that you're my sweetheart  
So when I meet us repeat fast  
Why don't we just take it slow, so we love

[Hook: Bruno Mars]

Sugar, cocoa and honey  
That's what you taste like to me  
Now all I need is your sex to wash it down  
Uh come here girl right now

[Verse 2: Master Shortie]

The world is ours  
Put your head back, see the stars  
I like you just the way you are like Bruno Mars  
I know I can, call me Laz  
I love your thighs, I love your ass  
Now give me your flower 'cause I'm a human vase

And I'm about to ride you, without a pass  
I hope, think you can keep a secret before I ask  
Oh no oh no you're burnin' my tongue just like you're  
cocoa  
Oh no oh no I think you need some cream upon you  
You think I got a chick, what's her name  
I ain't lying, you're my main  
You're the only picture inside my frame  
Let's wash it down with sex, no champagne

[Hook: Bruno Mars]  
Sugar, cocoa and honey  
That's what you taste like to me  
Now all I need is your sex to wash it down  
Uh come here girl right now

Sugar, cocoa and honey  
That's what you taste like to me  
Now all I need is your sex to wash it down  
Uh come here girl right now
