Is there anybody here, anybody there
Is there anybody here, calling for love
Is there anybody here, anybody there
Is there anybody here, calling for love
Anybody, is there anybody
Anybody, calling for love
Anybody, is there anybody
Anybody, falling in love

Boom, boom, shake and move
Shake your body to the groove
Hip, hip, make a trip
Masterboy will make you flip
On the left side dance with me
On the dancefloor you feel free
On the right side wave your hands
We are all together friends

Moving and moving and moving and moving on
Moving and moving and moving and moving on up

Bum didi bum didi bum didi bum didi bum
Cause lift me up to the maximum
Burn, burn, burn your feet
Get out of your seat and feel the beat
Fire, fire, set me on fire
Boys and girls come take me higher
Everybody clap your hands
We are all together friends
