Hey, hey hey, yeah everybody needs somebody
Hey, hey hey, yeah everybody needs somebody
Everybody, everywhere, everybody
Everybody needs somebody
Somebody

No problem at all with human races
Come on, come on, just listen the bass
Shake your body and move your bud
Over the top, right from the start
This is a song for all of you people
Come on, come on and feel the heat
This is a song for all of you races
Come on, come on and dance to the beat
No matter if you're black, no matter if you're white
Come on people unite, unite
There's not frontier, there's no hate
Join all in don't be late
This is our song for all creations
This is our song for all you nations
Come on, come on and move your feet
Shake your body, get of your sweat

Everybody needs, everybody needs,
Everybody needs somebody
Everybody needs, everybody needs,
Everybody needs somebody

We gonna rock you here, we gonna rock you there
We gonna make you shake almost everywhere
We gonna make you dance, we gonna make you move
We gonna make you follow our groove
Community, community, it's all that we shout
Community, community, come on and sing it loud
Australia, India and Barhein
Come on people there, gimme a sign
Italy, Russia and in Spain
Come on you people and open your brain
United States, United Kingdom
Holland, Belgium and in France
Come on people all over the world

This is our song and this our dance
