I hear you crying  
Out here on my own  
I wish I could help you  
'Cause I know what it is to be alone

Another day rolls in to night  
As another night fades away  
You would think by now I would have it down  
It just don't seem to be the way

Don't know what's wrong with me  
I think I'm losing my mind

There's a light in the distance  
It's shining my way  
From beyond the horizon  
A million miles away  
I see it clear as day

My face in the mirror  
All twisted in pain  
As we stand in the aftermath  
Things will never ever be the same

Don't know what's wrong with me  
I think I'm losing my mind  
Can't stop what's happening  
From taking all of my time

There's a light in the distance  
It's calling my way (my way)  
Far beyond the horizon  
A million miles away  
I'll be there one day

And the light in the distance  
Will show me the way (show me the way)  
Far beyond the horizon  
I will be there one day

And the light in the distance  
Is so far away

From beyond the horizon  
A million miles away  
I see it clear as day

The light in the distance  
So far away  
A million miles away  
A million miles away  
A million miles away

There's a light in the distance  
So far away  
So far away  
A million miles away
