In case you understand
Be sincere about it, this is for real

You feel this aversion to life
Fear and loathing, the weight of the world
It will all fade away

Now we climb up to a place
(Where the beauty is everlasting)
Our will as unshakable
As the rock beneath our naked feet

I hardly know you, face to face
On the brink of the grave
I won't persuade you

Like the snowflake we will fly
A dying dance, a silent cry
We're at the peak now

Face to face
On the brink of the grave
Don't turn around now

To step into the light
Falling down
To step into the light
Falling down

Let the moment arrive
With no more tears to cry
The spirit will wave goodbye

And step into the light
To step into the light
Falling down
To step into the light
Falling down
