Father you are no teacher
holy ghost you're no savior
'cause the earth is left to fate

Full of anger and of hate
and I never saw you change
our behaviour no no

Under the moon striving
the end will be soon dying
heavenly force
show us the way to follow

It's never too late
to try we could be
closer here you and I
Come down from your mountain
drink from the fountain of life

Help us remember
who we are we must have
come here from afar

Enlighten our minds
we can't see the signs
killing in time oh oh

Precious woman she is calling
I see her bloom
from the love that I'm sending

But there's no harmony
in the faces that I see
talking in riddles
playing the fiddle of life

Thousands of tears
have run out
from the core of my eyes

I've got nothing to loose
I'm a rebel

denying my fright oh yeah

Balancing high
on the wire unsteady
I move towards the firestorm

Born here to die carried away
and more than a few
shall remember the days

I was roaming the world
with my power and pain
for a moment in time
my music will stay yeah

We can't remember what we are
we always seek
that distant star

Give us a sign
we'll live with a crime
killing in time

Enlighten our minds
we can't see the signs
killing in time yeah yeah

And I'm losing my mind oh oh
I'm losing my mind ooh ooh ooh ooh ooh ooh
