"The Candy Song"

Lay it down little honey child
Got something I wanna taste

I got myself a hatchet
To lay these woods to waste

And when my work is through
I'm gonna bring my cash to you
Go down and see my sugar girl
She knows just what to do

Sugar girl
Wanna piece of that stuff
Crawlin' outta my skin
And I'm down on my luck
Sugar girl
Knocks me off my feet
Yeah the price is high
But the candy's sweet

Been workin' so hard baby
Workin' all night and day
Sometimes I feel like gettin' blind
And jumping in the bay

If you feel like I do too
You know just what to do
Go down and see the sugar girl
She knows just what to do
