Call ages of extortion  
Hail champions of conversion  
Sail mountain ridge and ocean  
Fall pounce on every portion

Rule demon over supplier  
More ravenous extraction  
Your indigenceour surfeit  
Tool scoffing democraton Claws

All over the world the carcasses of  
Cultures drowned in civilization  
Crawl over the world our cheap seductive  
Virulent commodification

Lords secular commandments  
Their tyrants our contractors  
Heir mortgage all improvement  
Force assests turned to outlet Claws

All over the world our godly politics  
Of friendly intervention  
Crawl over the world our avid kindness  
And exorbitant pretentions

All our self-development and  
Counterpolar under-education  
All our cardio-vascular expenditure  
For their infectious deprivation
