Joseph, that name is as good as any
For this Catch-22 we're in
Told of all the consequences
When you participate in sin
Stranger, failure
Found out through your mistake
You say you want to go, follow me
Yet you walk in front of me
Say you don't want me anymore
You're wanting all of me
Yet you walk in front of me
Say you don't want me anymore
Harem living isn't easy
When you don't know where to stand
Cherubin or Mephistophelic
Delivered upon your hands
Neighbor, savior
When you live day to day
You know you want to go, follow me
Yet you walk in front of me
Say you don't want me anymore
You're wanting all of me
Yet you walk in front of me
Say you don't want me anymore
Say you will...
