Watching the stories of important men,  
They seem to be intelligent  
But they have to learn politicians,  
Old and wise it's not reality this is disguise.  
Bad news on television, bad news every day,  
Bad news on radio, for messages, I have to pay.  
Murder on my TV screen,

Pictures like a bloody dream.  
Gunfights on dusty streets in former times,  
Step through the channels  
And you will be surprised.  
Channel one: money games,  
Channel two: fighting man,  
Channel three: fucking girls  
And at the end, synthetic land.
