Wrathful one, nine eyes gaze  
Holding skulls  
Filled and laced  
With human blood

Wrathful one, nine eyes gaze  
Holding skulls  
Filled and laced  
With human blood

Shades of darkened skies  
Emptiness  
Twilight holding through  
Offering

Lie in zenith  
Bulls' bloodshot eye  
Flattened portrait of night sky

Feel crust hum  
Facing the north  
Vapor space

Between heaven and earth  
Wisdom and the knower  
A planet collide  
Divisible we fall

Hear dirt waves  
Wading forth  
Vapor space

How long has it been  
Since we flew through shadows?  
I have walked on many other planets

How long has it been  
Since we flew through shadows?  
I have walked on many other planets

Sinister twin  
Choking on fear

Bonded iron  
Sink to the core

Hear dirt waves  
Wading forth  
Vapor space

Shades of darkened skies  
Emptiness  
Twilight holding through  
Offering

Wrathful one, nine eyes gaze  
Holding skulls  
Filled and laced  
With human blood
