Here we go at it three years later  
Will you help me to dream it all up again  
Tired of the same song everyone's singing  
Rather be lost with you instead

Don't you come around here  
Come around here anymore  
Dragging my fears  
Dragging my fears  
Out the door  
All I have  
All I have  
All I have  
Well, you know it's yours  
Every breathe  
Every step  
Every moment  
I'm looking for  
All I have  
All I have  
All I have  
Is yours  
And you watch my heart break a little bit more  
My heart break a little bit more

Is it cold yet in New York City?  
'Round here the trees been blowing off bare  
Everyone's talking about change on the airwaves  
I still got you on my breathe

Don't you come around here  
Come around here anymore  
Dragging my fears  
Dragging my fears  
Out the door  
All I have  
All I have  
All I have  
Well, you know it's yours  
Every breathe  
Every step  
Every moment

I'm looking for  
All I have  
All I have  
All I have  
Is yours  
And you watch my heart break a little bit more  
My heart break a little bit more

Oh I still trying to do my hardest  
Pick us all up from the fall oh  
Off the little corner of the darkness  
Just a crack the light in the middle of it all

All I have  
All I have  
All I have  
Well, you know it's yours  
Every breathe  
Every step  
Every moment  
I'm looking for  
All I have  
All I have  
All I have  
Is yours  
And you watch my heart break a little bit more  
My heart break a little bit more  
My heart break a little bit more  
Watching my heart break a little bit more  
My heart break a little bit more  
My heart break a little bit more
