[Sinner / Sinner, Geiger]

Little snow white hang tough  
You can dream a little longer  
When you walk the high-wire  
Hold on much stronger

What's a nice girl like you  
Doin' in this wild world  
Playing for keeps, you're going

Overdose, overdose - you set the wheel in motion  
Overdose, overdose - now watch it turn around  
Overdose, overdose - reason lies dying  
Overdose, overdose

You might wind up alone  
Do you think you're in control  
But the wounds keep on spreading  
Until they reach your soul

I can hear the door slam  
Sounding like thunder  
Of a sacrificial rite, you're going

Overdose, overdose - you set the wheel in motion  
Overdose, overdose - now watch it turn around  
Overdose, overdose - reason lies dying  
Overdose, overdose - I hear you crying in the wires  
Crying in the wires

Your life lies naked in the hands of fate  
Your memories add up to nothing
