I think you can do much better than me  
After all the lies that i made you believe  
Guilt kicks in and i start to see  
The edge of the bed where your nightgown used to be  
[ohh]

I told myself i wont miss you,  
but i remember  
What it feels like beside you

I really miss you hair in my face  
and the way your inisense tastes  
and i think you should know this  
you deserve much better than me

found these pictures i took that you were lookin for  
if theres one memory i dont want to lose  
that time at the mall you and me in the dressing room  
[ohh]

I told myself i wont miss you,  
but i remember  
What it feels like beside you

I really miss you hair in my face  
and the way your inisense tastes  
and i think you should know this  
you deserve much better than me

wish you never would have said its over  
and i cant pretend

i wont think about you when im older  
cause we never really had our closure  
this cant be the end

I really miss you hair in my face  
and the way your inisense tastes  
and i think you should know this  
you deserve much better than me

I really miss you hair in my face

and the way your inisense tastes  
and i think you should know this  
you deserve much better than me

and i think you should know this  
you deserve much better than me

and i think you should know this  
you deserve much better than me

and i think you should know this  
you deserve much better than me

and i think you should know this  
you deserve much better than me

and i think you should know this
