I'll stick around
And see how bad it gets
I'll settle down
And deal with old regrets
You know I
I adore you

I can't let you go
Can't let you go
You're part of my soul
You're all that I know
Can't let you go

Is it better now
Do you feel like all is fair
Can we work it out
So it's easier for me to bear

Because life
It can blind you

Down from the edge
I can see where we end
I'd give up all my days to go back
There was all this wonder
And all this magic
Is all this wonder
Over and done

If love were a whisper
What would I give you to speak
Maybe you're out of my reach

I can't let you go
