I don't know why sometimes we seem so apart  
Sewn together with a broken heart  
I try to see you but its getting dark  
Words keep flowing out I wonder what they mean  
You're like a little piece of kerosene  
But girl you've always been a friend to me  
And I've been too proud sometimes chasing fog lines

Oh no I'm gonna be there always  
After the pain has gone away  
The feelings are so strong  
This can be our song this can be our song  
Oh no I'll never make you cry again  
I'm gonna set things right again  
And i wont let them go wrong  
This can be our song this can be our song

I don't know if someone else could handle me  
I don't know what I'm suppose to be  
You're the only one who really sees  
You get me  
I feel something growing deep inside of me  
What I say and what I mean  
Always seem to disagree  
So help me through these hard times  
Change these fog lines
