Slow dancing on the boulevard  
In the quiet moments while the city's still dark  
Sleepwalking through the summer rain  
In the tired spaces  
You could hear her name when she was warm and  
tender  
And you held her arms around you  
There was nothing but her love and affection  
She was crazy for you  
Now she's part of something that you lost

[Chorus]

And for all you know  
This could be  
The difference between what you need  
And what you wanna be  
Yeah, what you wanna be

Night swimming in her diamond dress  
Making small circles move across the surface  
Stand watching from the steady shore  
Feeling wide open and waiting for  
Something warm and tender  
Now she's moving further from you  
There was nothing that could make it easy on you  
Every step you take reminds you that she's walking on

[Chorus]

Yeah, for all you know  
This could be  
The difference between what you need  
And what you want

Every word you never said  
Echoes down your empty hallway  
And everything that was your world  
Just came down

Day breaking on the boulevard  
Feel the sun warming up your second hand heart

Light swimming right across your face  
And you think maybe someday, yeah  
Maybe someday

[Chorus]

For all you know  
Yeah, this could be  
The difference between what you need  
And what you want

Yeah, for all you know  
For all you know  
Yeah, for all that you know  
This is what you wanna be  
Girl, what you wanna be

[break]

Hey! Hey! Hey!

I found out  
On a late-night drive  
In my winter coat  
With my bloodshot eyes  
And my faith ain't been  
No friend to me  
And the way I sin  
Is hanging off of me

And I'm sorry  
It can't take me anywhere  
Pretty soon we're almost there  
Baby, one more night  
It's been a long, long drive  
And I'm way, way tired  
I don't need no backup plan

Said, I don't want nobody  
Nobody don't want me  
And I'm so sad so lonely  
And I'm always landing on my feet

One more time  
With a sad, sad smile  
And your white-breath friends  
In the circus life  
All the one-way rides  
And those sweet beginnings  
Passing on the left-hand side  
With a sideways smile

And I'm always  
One step from stalling  
By those trips they make  
Baby, dance all night  
With your ass on fire  
And your hands up high  
And feel me one more time

Said, I don't want nobody  
Nobody don't want me  
And I'm so sad so lonely  
And I'm always landing on my feet

Well, I learn to love myself  
And I don't need no one else  
And when the love moves on  
'Cause it gets cold  
And another moves in  
And it could fill the hole  
And I'm one more hopeful  
Lying on the bedroom floor  
No sense trying  
When the whole thing drops  
You lose your nerve  
I hope you get what you deserve

Said, I don't want nobody  
Nobody don't want me  
And I'm so sad so lonely  
And I'm always landing on my feet

And I don't want nobody  
Nobody don't want me  
And I'm so sad so lonely  
And I'm always landing on my feet

Hey! Hey! Hey!
