Kody sat down on the avenue  
He tapped his feet, to the humming of the highway  
He watched the light shine down on the broken glass,  
and thought  
I don't got no reasons, yet  
There it is and there it was  
It was clear to all of us  
We kept this hat of broken dreams  
And we pulled them out, when we needed them  
Around  
(chorus)  
So please hand me the bottle, I think im  
Lonley now  
And please give me direction, I think the hurt set in  
And I don't feel nothing

There's a squeak hinge down on the back gate  
It lets us know if he comes around  
I don't sleep that good anyway  
If youve never heard that silence, it's a  
God awful sound  
(chorus)  
I don't feel nothing, no I don't feel nothing  
There's nothing to feel good about here

Don't much get down to the avenue  
I could drive, but it takes so much to get there  
Don't get off all the broken glass, the  
Cadillac scene,  
Well  
Ive seen a lot of good things die and im  
In an over emotional way  
(chorus)
