She wanted something just like the real thing  
He needed love and it all worked out some how  
He knows that love is the king of emotion  
But he can't touch her because she's too perfect now  
But she wasn't like that then and  
He wasn't like that then  
They were everything, everything they need  
Chorus:  
Suffer me  
Call on me and i, i'll call on you  
Suffer me  
Call on me and i, I'll call on you, call on you  
She wasn't thinking about anyone else just then  
But she knew someone else would always come to  
mind  
Because they were strangers living in the feeling  
They were scared when they heard they talked about  
love  
But it wasn't like that then  
It just wasn't like that then  
They took everything because everything was for real  
Repeat chorus  
Oh yes they were thinning out  
At that moment they were all afraid  
Started thinking that pretty soon one of them would  
leave  
She said suffer me  
Repeat chorus twice
