I can't sleep at night, nah  
Voices getting louder now she's fleeing from the car  
Words are like bullets, when they heal they leave scars  
If love is a battlefield, then we are at war  
I remember before we were happy, we fall  
In and out of love like tides on a seashore  
Is it right to leave off, what you need to breathe off  
Then you take the time that you need to grieve of  
Most don't stop, they following on the course  
Slipper slope that always ends in divorce  
Do I make tracks like the tears of a clown  
As hard as is to fly, she still shoots me down

Maybe in a minute, this could all be done and finished  
But I promise that I'm with it if we just forgive  
Forget it, I'm wrong baby, but we are the floss baby  
Cuz happy, I was thinking and my positive's a shrinking  
And you looking me when speaking like what was I just  
thinking  
It's past due, why am I with you, yeah

I've been thinking that it's so real, what does it feel  
To give it your all and feel like you're falling baby  
I've been thinkin that it's so cruel, to be confused  
It's like I'm caught in a maze, running away

Please don't shoot me down  
Cause I'm flying, I'm flying, I'm flying  
Don't wanna leave now  
Please don't shoot me down  
Cause I'm flying  
Don't wanna leave now

Maybe we should just be silent, not, your supposed to  
make us smile  
Everything is not one-sided, can you just hear me out  
baby  
There's no need to shout baby  
I know we go through life, be silent, but most people  
ride or die  
And don't give up just keep on flying  
On and on babe, we just can't fall, no, no

I've been thinking that it's so real, what does it feel  
Feel like to give it your all and feel like you fall  
I've been thinkin that it's so cruel, to be confused  
I'm caught in a maze, We're running away

Please don't shoot me down  
Cause I'm flying, I'm flying, I'm flying  
Don't wanna leave now  
Please don't shoot me down  
Cause I'm flying  
Don't wanna leave now
