Stop before you believe what they say
I know they talk all the good things away
But they don't know, it's alright with me babe
Don't fall back cause you made a mistake
I know they talk like you'll never escape
But they don't know, it's alright with me babe

Cause you could be on the street without a dream
Or even the enemy waiting for me
Either way, it's alright with me babe

Cause I still be loving you, I be loving you
Still loving you, I be loving you
Still loving you, still holding up baby
Cause there's no doubt about you and me
Still loving you, I be loving you
Still loving you, I be loving you
Came here just to say that I have no doubt babe

Stars could fall and you shine and on the sea
The world you stole at 100 degrees
But i won't budge, you're so right you see
Cause all i know is I look in your eyes
That I'll be here for the rest of my life
Cause you make me, alright with me yeah

Cause nothing you ever do turns me away
And nothing they ever say matters so me

Either way, it's alright with me baby

Cause I still be loving you, I be loving you
Still loving you, I be loving you
Still loving you, still holding up baby
Cause there's no doubt about you and me
Still loving you, I be loving you
Still loving you, I be loving you
Came here just to say that I have no doubt babe

Cause that's how i feel, and it will never change
It's me and you, its forever
Okay, alright, all night, let's keep on loving baby

Cause you will never feel alone
So baby come on inside
And you will never see your shadow
Without mine intertwined
So you should never spend a minute doubting you and
I
Okay, Alright, All night, let's keep on loving baby

I still be loving you, I be loving you
Still loving you, I be loving you
Still loving you, still holding up baby
Cause there's no doubt about you and me
Still loving you, I be loving you
Still loving you, I be loving you
Came here just to say that I have no doubt babe
