Just a little love at a time, I know that every minute's  
special  
I put myself right on the line, to see if I could be a  
vessel  
So come and see what's in my heart yeah, maybe see  
your own reflection  
Cause all we are is what's inside, so open up and know  
I'll listen

(Chorus)

Cause it's in your smile oh oh  
Or in the ground oh oh  
Oh and I wonder if you give me  
So say it loud oh oh  
Or yell it out oh oh  
Oh and I know that you can feel me  
Just get to know me yeah x3  
Come here  
Just get to know me yeah x3  
I'm here

Come and see what's in my heart yeah, and color it  
with your affection  
And listen to me from the start, to find the one my love  
is promise  
Cause every time I thought up around, I try to see from  
your perspective  
And every word that brings a sound, turns into my own  
confession

(Chorus)

Can you say oh, oh, oh, oh, oh, oh, oh, oh, oh yeah  
Say oh x9  
Sing y'all oh x9  
Say oh oh oh oh yeah oh yeah

(Chorus)
