Oh, one bad decision to be your missioner  
I'm further more.  
We put our love in the ground  
Felt to die when a car on the road  
100 miles, I'm still thinking about you, uuuh yeah  
And you said, that it's over  
I know, but my heart seems never lose faith.  
Caught the acts, stop the games, but still I can say  
When I get back, I'ma be looking you up.  
Looking you up.

We are lost and found  
Please love me and have me stay  
We are lost and found  
Before we throw it all away.  
So, I'm looking for the love  
Would you love me again?  
Yeah!  
We are lost and found  
Looking for you up.

Stacy Barthe:  
Ooh, oh  
I died on the inside a thousand and one time  
Right the click,  
Walked round on my knees, praying one day  
You'd come back for me.  
Don't know where you've been,  
I'm still looking you up.  
Looking you up.

Me and I lost and found  
Please love me and have me stay  
We are lost and found  
Before we throw it all away.  
Cause I would love you, I would love you  
Would you love me again?  
Yeah.

Me and I lost and found  
Looking for you to get.

Started all these fires, so you see the smoking  
I have your face on flying with the title  
Broken high space.  
I have you looking around now  
Waiting to be found now.  
Oh oh oh  
So, I just keep on searching forever  
Until we're together.  
Until we as lost and found.

Me and I lost and found  
Please love me and have me stay  
We are lost and found  
Before we throw it all away.  
Cause I would love you, I would love you  
Would you love me again?  
Yeah.  
Me and I lost and found  
Looking for you to get
